

# SHOEBOX QuickTest

## A Simple Solution for New Customer Acquisition

*An easy-to-use hearing screening test to help you find qualified new customers for your hearing clinic. Qualified leads for your hearing services clinic, at a fraction of the cost of traditional marketing.*

- ✓ Configurable testing options - to suit your specific needs
- ✓ Custom branding - to promote your company and maintain consistency
- ✓ Supports 19 languages, HIPPA Compliant
- ✓ Ability to manage a fleet of iPads through a web portal

We know it's a challenge to attract new, qualified patients and prioritize appointments based on their hearing levels. We believe you deserve an easy-to-use and cost-effective solution. SHOEBOS QuickTest can be used in both attended and unattended kiosk mode in many settings where your potential clients may gather. SHOEBOS QuickTest can help you identify your most qualified patients, sort them into different hearing levels, and recommend the next step in their hearing health journey.

With automatic syncing of results to our cloud-based portal, you can quickly and easily identify your best candidates for scheduling follow-up appointments—no additional work required.

SHOEBOS QuickTest is the ultimate companion to our SHOEBOS Pro edition, which can be used to perform diagnostic hearing testing after using SHOEBOS QuickTest.
